Dear Valued Customer,

We are pleased to announce McGean and Met-L-Chek are now operating as one, effective March 1<sup>st</sup>, 2019. Moving forward, the Met-L-Check product line of penetrants, magnetic particles materials, and lab services will operate under the Cee-Bee Aviation division within McGean.

Cee-Bee Aviation is a world leader in the manufacture and supply of cleaning and maintenance products to the commercial and military aerospace industries. Headquartered in Cleveland, Ohio and operating from facilities in the United States, the United Kingdom, Singapore, and China, the Cee-Bee division is positioned to serve the global aerospace maintenance, repair and overhaul industry.

The partnership between Met-L-Chek and Cee-Bee Aviation dates back over 20 years; originally as a distributor of Met-L-Chek penetrants, magnetic particles materials, and lab services as a product offering to our turbine engine overhaul customers. We are excited about our new beginning with Met-L-Chek and hope to provide a comprehensive network of integrated services to satisfy our customer's needs.

Our top priority is you, the customer, and you can expect the same service and reliability you've come to know from Met-L-Chek. It is our commitment that with Cee-Bee's resources we can add to that customer satisfaction and grow our partnership to mutual benefit.

Over the coming weeks, a Cee-Bee Representative will be contacting you so that we can determine how to better serve you and answer any questions you have. Please feel free to contact us at any time.

**Please note, the electronic payment information on your invoices will have a new account number, ACH routing number, and SWIFT code.**

Thank you for your continued support of Met-L-Chek. We look forward to working with you.

Kind Regards,

Michael A. Velotta  
Global Business Manager – Cee-Bee Aviation
